

I do not agree to any proposal that would allow more media outlets than already designated to be owned by any one person, corporation, or subsidiaries of the same corporation/LLC/company, etc.

I do indorse a return to a more restrictive regulation whereby fewer media outlets are governed by the same person or organization.

I feel that this is a restriction on the First Amendment by allowing the "press" to be so centralized, as to result in the press not being "free" at all.

Quality of major radio, television, and the print media has suffered and has become so standardized as to limit innovation, variety, and views.

Presentation of a only one or a few prespectives of an issue can maniputlate the views of the American people totally away from the truth and their values.

Please do not broaden the Broadcast Ownership rules.

R. Zimmerman
